

# LUISE GROUP ANNOUNCES THE FIRST SUCCESSFUL CLEARANCE OF A YACHT INTO THE NATURAL MARINE RESERVE IN LIGURIA

NAPLES, Italy, June 4, 2009 - Luise Group is pleased to announce that the company has recently cleared the very first yacht, a Feadship 152 ft. LOA, into the Marine Reserve of The Cinque Terre, on the Italian Riviera.

Permissions have been issued by the local authorities in real time, thanks to the expertise of the local agent, Luise Associates Riviera.

Guests and crew on board have been able to experience the beauty and magic of the Cinque Terre in an exclusive setting as this is **the only yacht in the area**.

The Cinque Terre is one of the most uncontaminated areas in the Mediterranean Sea. It is world famous for its five miles of rocky coastline that offer spectacular views. Due to its historic importance and strategic location, the Cinque Terre has not suffered from massive expansion. This is evident when visiting the five quaint villages that make up the Cinque Terre: Riomaggiore, Corniglia, Manarola, Vernazza and Monterosso. The vineyards, typical of this area, have also contributed in creating a unique landscape complete with dry-laid stone walls, winding paths and enchanting beaches with clear blue waters.

The Cinque Terre offers picturesque hiking trails, which suit every fitness level and age. These trails allow visitors to experience breathtaking views while visiting historical churches, oratories and old castles. The area offers abundant diving opportunities, as well as food and wines of the finest qualities.

Luise Group is an Associate Partner of BWA Yachting, worldwide leader in concierge and maritime agency services to the super yacht industry.
